

Packaging Policy

Mitr Phol Group is committed to operating our business by focusing on environmental conservation. Environmental impacts especially plastic waste pollution is extremely caused the long term ecology system effects. It is Mitr Phol's goal to design and develop safe, and environmental-friendly packaging, while, meeting the need of consumers.

The guidelines are to:

1. Develop technologies for packaging development to realize a circular economy concept.
2. Reduce the use for single-use plastic packaging and promote to use of reusable packaging.
3. Promote use of compostable and recyclable packaging for packaging development.
4. Promote use of recycled packaging which does not touching food directly to reduce the use of new materials.
